STORAGE & DISTRIBUTION

Our storage facilities are fully hygienic & temperature controlled in order to maintain the quality and safety of our products. We follow the Municipality and Hygiene control standards and principles strictly, to ensure customer satisfaction with our products.

Our well-planned distribution network and logistic system allows us to support and monitor the movement of our products. We have a fleet of modern and well-equipped refrigerated vehicles manned by experienced, trained, and hardworking drivers. This full-fledged distribution system enables us to supply the Juices in fresh/frozen conditions on time.

ASEPTIC FROZEN PRODUCTS

We are flexible at any stage of the process and are ready to find the best solution to cater to our customer needs. As a final step, our in-house laboratory will provide a range of analysis (brix, acidity, ration, PH, % pulp, sensory evaluation)
